

Could you pray to a... *beetle* ?

Khepri - The Dung Beetle god

The Egyptians did!
We find this amazing!

The people of Egypt saw the way this small beetle pushed a dung ball around, was just like the way the sun moved. So they adored the 'mover' of the sun!

Little children, keep yourselves
From idols!

But then the
Egyptians prayed
to everything –
even snakes!

An **idol** is a
manmade view of
the Unseen God. A
little god, but a *big*
insult! God calls
them dung gods. אלהים

If I beheld the sun when it shined, or the moon walking in brightness & my heart has been secretly enticed, or my mouth has kissed my hand: this also were a crime.. Job.31.26

Can you imagine if your friends drew a worm and called it by your own name. Wouldn't *you* be cross? How much more the God of all glory! Yet we *each* upset Him, by love for our own gods.

God shows Himself to us by His Word, His spiritual Son, the Lord & Messiah Jesus. Jesus said to a follower, 'Have you *not* known Me...? He who has seen Me has seen the Father'.

Saying to a stock, Thou art my father; & to a stone, Thou has brought me forth: for they have turned their back unto Me. Jer.2.27

You're welcome!
